#### Medium difficulty tour

*MOUNTAINBIKING is an unique new way to explore the hidden and unspoiled parts of the green Corfiot countryside. You will cycle under the cool shade of the island's ageless olive groves on country roads and trails passing through some unknown and hidden yet most picturesque and traditional villages.*

From the villa you will be taken to Dassia resort (40 minutes drive), where you will select your MB and receive all necessary road instructions together with bottled water and helmet. Accompanied by your experienced local guides we start easy cycling along the beautiful Ionian Sea, leave the coastal road, and enter immediately Corfu's green hinterland.

After an approx. 20 minutes climb – (your today's work-out) along impressive ancient olive groves we reach the medieval village of San Marcos where you will see Venetian hamlet with carefully restored Venetian mansions and chapel dating to Byzantine times. The climb will reward us with stunning views from the bell tower of the green inner plains of the island and even until the port of Corfu town which are stretched below us.

We continue to one of Corfu's most picturesque medieval villages: Ano Korakiana. We visit the old mini market and stroll through the narrow paved alleys and tunnels with numerous Venetian mansions, inhaling the typical village atmosphere from far-off times.

Now we are cycling along olive groves and vineyards and reach the pretty taverna near Kato Korakiana, where at the terrace awaits for us an excellent fruit buffet with a rich selection of seasonal fruits and a selection of fresh juices. Full of impressions we cycle slowly downhill with fabulous sea views, through the village and along the Venetian "Castello", back to the MTB station in Dassia, where your transfer awaits you to bring you back to the villa.

- Round trip starts easy along the sea, then moderate cycling, including one work-out (slow climb of 3km's) followed by cycling through light undulating landscape, and after refreshments a slow downhill with fabulous views. Total distance covered is 21,8 km.
- Participants must be 12 years and older! Tours are suitable for guests in a healthy physical 'cycle'-condition and basic cycling proficiency is required.

## MUSEUMS

### Most important Museums on Corfu Island

#### The Archeological Museum

The entire ancient finds of the island, mostly of the archaic period, are kept in the New Museum overlooking *the Bay of Garitsa*. The most impressive exhibit is the west pediment of the Doric Temple of Artemis dating from 590-580 B.C.; it is one of the largest surviving sculptural groups of its kind in Greece and dominates the main hall. Other interesting exhibits include the sixth century funerary capital of Xenokles, in the anteroom, which bears an Archaic Corinthian inscription. Also worthy of note in the anteroom is the 'boustrophedon' inscription, forming an epigram in Homeric hexameters and dating from the early sixth century B.C., on a vertical stele. In the North room are also exhibited two small archaic masterpieces. One of these is the head of a Kouros by a Corinthian sculptor; it dates from about 535-530 B.C. The other exhibit, a sixth century bronze statuette. In the courtyard behind the Museum stands gigantic **Doric capital** resting on a column drum, from the *temple of Artemis*. **Visiting hours: Tuesday – Sunday 08:30 – 15:00 TEL: 2661030680**

The collection includes some beautiful **bronze wares** of the Chou (1027-256 B.C.) and Han (206 B.C.- 220 A.D.) dynasties. The classical period of Chinese art is represented by a great variety of **porcelain** of Sung (960-1276), Ming (1368-1644) and Ch'ing (1644-1912) dynasties. The Japanese collection contains much more porcelain ware, wooden masks of the "No" theatre, suits of Samurai armor, Utamaro wood-cuts, beautiful eighteenth century silk and rice paper Kakemonos, and books illustrated with prints. The church has been entrusted to the Greek state by the owners, along with its numerous icons, frescoes and paintings and rich collection of silver which carried out extensive restoration and redecoration in preparation for the New Museum. The church is a single-nave basilica surrounded by a narthex on three sides, which constitutes a unique feature of Church architecture in Corfu.
